EDUCATION

B.Tech – Artificial Intelligence and Data Science

Loyola Institute of Technology
2024 – 2028 | CGPA: 8.22

Higher Secondary (12th) 55.5%

2023 – 2024

SSLC (10th) 2021 – 2022

TECHNICAL SKILLS

Programming Languages

- Python
- Basic Java

Web Development

- HTML
- CSS
- Full Stack Development

AI & Data Science

- Machine Learning Fundamentals
- Data Analysis
- Pandas
- NumPy
- Artificial Intelligence Applications
- Prompt Engineering

Tools & Technologies

- GitHub
- Git (Basic)
- VS Code
- Cursor AI
- Claude AI
- Canva

LANGUAGES

- English
- Tamil

STRENGTHS

- Problem Solving
- Quick Learning
- Teamwork
- Adaptability
- Communication Skills

PROFESSIONAL SUMMARY

Aspiring AI Engineer and Software Developer pursuing a B.Tech in Artificial Intelligence and Data Science with hands-on experience in Python, Full Stack Development, Machine Learning, Data Analysis, and AI-powered applications. Skilled in developing innovative solutions through academic projects, hackathons, and research conferences. Experienced in using modern development and AI tools including GitHub, VS Code, Cursor, and Claude to build efficient software solutions. Strong problem-solving, teamwork, and quick-learning abilities with a passion for artificial intelligence, software engineering, and emerging technologies. Seeking internship and full-time opportunities to contribute technical expertise and grow in a dynamic technology-driven environment.

PROJECTS

Graph Foundation Model

May 2024

Technologies: Python, Machine Learning

- Developed a project based on graph-based AI and Machine Learning concepts.
- Implemented data processing and model structures using Python.
- Explored advanced graph learning techniques.
- Published source code on GitHub for collaboration and learning.

Rainwater Harvesting System (Smart India Hackathon)

Aug 2024

Technologies: Python, IoT Concepts

- Designed a sustainable water conservation system.
- Proposed IoT-based monitoring for efficient water management.
- Collaborated with team members to develop an innovative solution.
- Qualified for Round 2 of Smart India Hackathon.

AECE – Ethical AI System

Oct 2024

Technologies: Python, Artificial Intelligence

- Developed an AI-based decision-making model.
- Focused on responsible and ethical AI principles.
- Analyzed decision-making approaches in intelligent systems.

AI-Based Health Report Analyzer

Dec 2024

Technologies: Python, Pandas

- Built an AI-powered application to analyze health reports.
- Automated healthcare data interpretation.
- Improved report analysis efficiency using data-driven methods.

INTERSHIP

AI/ML Intern – ISM University, Bangalore

May 2025 – June 2025

- Worked on real-world Artificial Intelligence applications.
- Gained hands-on experience in Machine Learning workflows.
- Collaborated on practical development tasks and research activities.
- Improved understanding of AI model development and deployment.

CERTIFICATIONS

- Python Programming Certificate
- UI/UX Design Certificate
- Graphic Design & Video Editing Certificate
- Naan Mudhalvan Skill Development Program
- Drone Technology Certification
- Mobile Technology Certification

ACHIEVEMENTS

- Qualified for Round 2 of Smart India Hackathon with Rainwater Harvesting Solution.
- Participated in College-Level Hackathons.
- Participated in 3 Technical Conferences related to AI and Emerging Technologies.
- Developed and maintained 4 projects on GitHub.
- Successfully completed AI/ML Internship at ISM University, Bangalore.

RELEVANT COURSEWORK

- Artificial Intelligence
- Machine Learning
- Data Analytics
- Data Structures and Algorithms
- Database Management Systems
- Object-Oriented Programming

CAREER OBJECTIVE

To secure an AI Engineer or Software Developer role where I can apply my technical skills, contribute to innovative projects, and continuously learn emerging technologies while creating impactful solutions.
